Design & Manufacture

All CLICK products are manufactured to the highest quality levels in our industry and comply with all relevant British and European standards. Guarantees of up to 20 years against materials or manufacturing faults show how confident we are in our product design and quality.

When designing a new range of products, aspects including technical features, materials used and the aesthetic appeal of the individual products are considered. Location and function along with energy efficiency and reliability ensure we develop with current and future markets in mind. Our team of designers and product developers works closely with the sales and support areas within our business as well as referencing market trends and inspectors' references. This enables Scolmore to develop a choice of quality electrical accessories and lighting products to suit even the most demanding specifiers, architects and installers.

Product	Type	Registration Number
A Light Fitting	UK Registered Design	2106475
Junction Box	UK Registered Design	3009706
Lamp Fitting	Community Registered Design	19427-0001
Lamp Fitting	UK Registered Design	3009707
Junction Box	UK Registered Design	3015175
Lamp Extraction Tool	UK Registered Design	3015278
Surface Finish	UK Registered Design	3015621
Firehood	CommunityRegistered Design	376918-0001/0002
Ballasted Ceiling		
Connection Housing	UK Patent	GB2412252
Heat Resistant Casing	UK Patent	GB2415245
Starlight Ring	UK Registered Design	379193-0001
Bath/Sink Switch	UK Registered Design	427463-0001
